KEY ROUTE WILL USE SUBWAY IS CONTENTION

Hearing Before State Railroad Commission Yesterday in Subway Matters Developed Fact That Key Route Intended to Run the Freight Trains on Macdonald Avenue in Distant Future—Maintain Franchise GrantsPrivilege of Using Road for Freight Purposes

At the hearing before the state railroad commission at San Francisco in the Macdonald avenue subway matter, it developed, according to the contention of the attorneys for the Oakland Traction company, that the franchise granted by the board of supervisors to the East Shore and Suburban railway years ago for the Macdonald avenue street railway gave the company, and its assigns, the right to run freight trains on the street. This was the main defense offered by the street car corporation for its refusal to accede to the request of the city of Richmond to move its car tracks over to the north in the subway in order to give the municipal authorities an opportunity to build an elevated sidewalk in the passage underneath the tracks of the S. P. company.

The attorneys for the Oakland Traction company contended that it was the intention of the Key Route to use the road for the purpose of hauling freight in the future and that if the tracks were moved in accordance with the plans of the Richmond municipal authorities it would be impossible for standard sized freight cars to go through the subway.

City Attorney Hall will examine a copy of the franchise and in accordance with the request of the Richmond city attorney the commission passed the hearing over for two weeks.

ROSS BUILDING TO BE OCCUPIED BY REALTY FIRM

A new building recently erected on Sixth street, by P. O. Ross, next to the postoffice, is to be occupied by the Claude Gignoux realty firm of San Francisco and Oakland. The headquarters of the realty firm is one of the finest and most up-to-date in Richmond, having a marble front besides a number of first class fixtures.

Ross is a large property owner and is contemplating the erection of several other buildings in the near future.

It is so easy to be honestly mistaken.

The "Big Brother" Spirit

—is one of the reasons why these banks are what they are today. The desire and ability to help our depositors and every "little brother" of ours who deserves assistance has helped us to succeed while it has helped many of our smaller brothers to do the same.

If you are not one of our younger brothers, come to us, open an account with one of these banks, and help us to enlarge and influence the spirit of the "big brother" idea.

Teams to Be Used On Tunnel Work

Last evening Superintendent of Construction Carrillo, of the Shattuck-Edinger company laid off 60 of the 84 men working for his company on Oregon and Buena Vista avenues. The reason of the layoff was the fact that Carrillo concluded the work would have to move faster than it has and is arranging to employ a number of teams on the work.

The work of removing the fill on Oregon avenue is progressing satisfactorily and the dirt is being dumped on teh extension of Ashland avenue to form a sixty-foot roadway.

As soon as the required fill is made the balance of the dirt will be utilized to fill in around the Washington school building at the foot of Richmon davenue. The dirt and rock will be taken from the mouth of the tunnel in wagons.

Superintendent Carrillo expects to have Oregon avenue cleared and the dirt hauled away by this evening.

Body of Unknown Man Found Floating In Bay

With no marks of identification upon it, the body of an unknawn man was found floating in the bay near Point Orient at a late hour yesterday afternoon by P. C. Anderson, a mechanic employed on a pile driver at that place.

Although the features had been entirely eaten away by the denizens of the deep, the local authorities are of the belief that the body is probably that of the man who, on the evening of February 15th, committed suicide from the deck of the river steamer W. T. Walker, as that boat was passing Point Orient bound for Stockton.

No papers of marks of any description could be found on the man which would in any way help the authorities to unravel his identity. The man was clad in a light brown suit, black shoes and wore a soft brown woolen shirt.

The body was in a very bad state of decomposition and according to Deputy Coroner Smallwood must have been in the water for at least three weeks which would bring the death of the man near to the time when the supposed suicide met his fate on the river boat off Point Orient.

The only clue furnished as to the identity of the dead man the local police was furnished by several men who were on night shift at Point Orient wharf on the evening of February 15th as the steamer W. T. Walker was passing up the bay for Stockton, and who heard a shot and then a splash. The boat was stopped and lifeboats put out but the body of the unknown suicide could not be found.

At a late hour this afternoon an autopsy was performed on the body by Dr. C. L. Abbott in the presence of Chief of Police Arnold and Deputy Coroner E. B. Smallwood, which resulted in the finding of a small hole in the head of the dead man, evidently made by a bullet.

"To Observations Which Ourselves We Make, We Grow More Partial, for the Observer's Sake."

"HE WHO IS WITHOUT SIN"

Some people seem to think that because some man or set of men happen to own a printing press, type, ink and white paper and be engaged in the business and enterprise of publishing a newspaper that they should continually and everlastingly be roasting somebody, and particularly the person or persons for whom the individual possessing the opinion has it in for. This idea also prevails as a rule with people who are fresh in the business. The novice at the newspaper business always roasts people, firms, corporations and everything in sight, being possessed with the notion, so prevalent with the illayity, that journalism consists of a policy of antagonism and of tearing down instead of building up, and that the more brickbats one throws the smarter one is.

The older ones in the publishing business do this sort of thing only when the case is an aggravated one and so flagrant as to demand public attention. The smart Alic, the know-it-all, the youth and the novice all take special delight in the roasting program, and when they see their mud-slinging efforts in print they take great pride in the thought and belief that they have shown to the world a degree of erudition and intellectuality that is positively startling, when as a rule they have only shown the reverse.

After the young man and the new man gets about fifty or a hundred years of experience tacked on to him he quits all that sort of foolishness, and if he should look back over his files of years ago he would blush with shame and chargrin over what at the time he deemed exceedingly smart.

This scribe used to do those sort of stunts, as probably nine out of ten new beginners do. We started our first newspaper way out on the plains of Kansas, when we were 21 years of age, and can still remember a lot of things we used to print, over which we got real swelled up, and thought they were about the cutest things that ever happened. There were roasts regularly—oh, there were plenty of roasts. Every prominent man and official was properly flayed, the government lambasted, banks crucified and railroad managements burned at the stake. We were a bright and shining "journalist," with a Washington hand press, a tin can full of long primer type, and some 10-cent ink and white paper as often as the supply housees down at Kansas City could be stood off for it. We wondered then why there was no demand upon the part of the people for us to go to congress, but now we look back at that dim and distant past and wonder why somebody didn't load up a double-barreled shotgun and give us both barrels. In those days we were a "journalist." Now we are only a newspaper man, and no great shakes at that. But we would give a million dollars, if we had it, if we could really be as smart today as we thought we were at 21.

This continuous roasting business is a mistaken policy. It is much like green persimmons. Only strangers eat green persimmons, and they only do it once. Molasses catches more flies than vinegar. People pay more and are much more interested in going to see comedy that makes them laugh than tragedy that makes them cry.

The Master said: "Let he that is without sin cast the first stone," and those of us who try to heed that divine admonition are not shying many rocks.

We note from one local publication that Senator Owens has scuttled about all the ships that ever sailed this bay; that the majority of our city council belong in San Quentin penitentiary; that it is the paving companies and not the trusts that are sapping the life blood of this nation, and especially this town; that Pat Dean ought to have been strangled in infancy; that there is a growing tendency on the part of professional men to elope with blooming young widows; and that everybody else is under suspicion.

It is real refreshing to at last come across somebody who "is without sin." Diogenes ought to get around here with his lantern. Bring on your Magdalenes and large supplies of stones.

Two troubles in Mexico is lack of men to lead and laziness on the part of the people to follow.

We do not blame Senator Owens for wanting to close the Barbary Coast saloons, for they do say the brand of booze they peddled would make a perfectly amiable rabbit stand up on his hind legs and spit tobacco juice in the eye of a wildcat.

CANDIDATES IN ALBANY TO INCREASE

That the citizens of Albany may place more candidates in the field than those already nominated for places in the coming recall election of April 13, was the opinion advanced yesterday by Deputy Attorney General Harrison in speaking of the validity of the law regarding the filing of petitions of nomination by cities of the sixth class.

The recall campaign was instituted by the Albany Civic Political League for the purpose of unseating Mayor Frank J. Roberts and Trustee George Thompson. John J. Clark has been nominated to oppose Roberts and Matt Stanley will run against Thompson. Others placed in nomination by the Civic League are: Trustees, for four-year term, L. C. Green and Samuel Logan; two-year term, Edward A. Kreiss; school trustee, Graham H. Wheeler; city clerk, R. L. Davis.

CAN SEND AUTO TIRES BY POST

SAN FRANCISCO, March 10.—An important concession affecting automobile men has been made by the federal government, according to information received here today by the postoffice authorities. Heretofore, automobile tires measuring more than 72 inches, could not be sent by parcel post. Despite the fact that the entire package was not larger than other mail matter accepted, the tires were barred. Today's order from Washington is to the effect that all the parcel post regulation has been changed to allow for the sending of all automobile tires through the mail.

DOUBLY PROVEN

Richmond Readers Can No Longer Doubt the Evidence.

This Richmond citizen testified long ago.

Told of quick relief—of undoubted benefit.

The facts are now confirmed.

Such testimony is complete—the evidence conclusive.

It forms convincing proof of merit.

Mrs. James Wright, 1119 Roosevelt avenue, Richmond, Cal., says: "I was troubled all the time with weakness and pains in the hips and loins. I was almost laid up. I got up in the morning feeling so tired, lame and worn out, that it was all I could do to start my housework. My kidneys were weak and if I caught cold, it always made me feel worse. I tried everything I heard of, but didn't seem able to get relief until I began taking Doan's Kidney Pills. I soon felt like a different woman. After I had used four boxes, all the ailments had gone and my health was fine."

No Trouble Since.

On April 21, 1913, Mrs. Wright was interviewed and said: "I haven't had a sign of kidney complaint since Doan's Kidney Pills cured me some years ago. You may continue using the endorsement I have given them before."

EXPRESS RATES CUT BY COMMISSION

SAN FRANCISCO, March 10.—A saving of millions of dollars each year which may accrue to the people of California is shown in a schedule of express rates for the shipment of milk, cream and other dairy products which was issued here today by the railroad commission, and which becomes effective March 15. The schedule shows the commission has taken a large slice out of the profits of Wells-Fargo & Co. for the transportation of products of California's 25,000 dairies, in some instances the cut being more than one-half of the existing rates.

FUGITIVE IS TAKEN IN FAR AWAY ISLANDS

MARTINEZ, March 10.—The pursuit of the man by the law as symbolized in the two characters, Jean Valjean and Javert in Victor Hugo's masterpiece of "Les Miserables" finds its parallel in the arrest in Honolulu of a fugitive from Contra Costa county, Thomas Ielmini, who is wanted for the crime of assault with a deadly weapon committed at Stege over four years ago.

Ielmini fled after committing the offense and under change of name sought refuge from the sight of the authorities by going to the Hawaiian islands where among the sugar plantations he escaped the vigilant eye of the police. But a circular sent out from the sheriff's office here came to the notice of Captain of Detectives McDuffie of Honolulu and Ielmini under the name of Gobriel Collado came into his eye as fitting the description of the fugitive from far off Contra Costa and the police captain took him into custody. A cable from Captain McDuffie was received this morning briefly telling of the arrest of the fugitive as follows:

"Honolulu, March 8, 1914.
"Sheriff R. R. Veale,
"Martinez, Calif.

"Did Spaniard escape from prison awaiting trial, crime committed in Richmond quarry about 1909. Name of Gabriel Collardo, scar right side of jaw, prominent teeth, "T. S." tattooed left bicep, answer.

"McDUFFIE."

Collado has been identified as Ielmini. He is an Italian and he did not escape from custody but fled at the time of committing the crime for which Constable Davis and the sheriff have been in quest of him for years.

GLASS OF SALTS CLEANS KIDNEYS

If your back is aching or Bladder bothers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which every one should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache. —Advt.

Eye Talks

If you have to remove your glasses to rest your eyes, they do not fit, a glass is worn to rest the eye and increase its powers. The fitting of an eye glass is as important an operation as any performed with the knife. You should see that you get the best of service. Cross eyes, itchy and watery eyes, jerking of the eye balls are generally caused by errors of refraction.
